AOKA

Description

The Aoka, is also known as 'Killer Whale' is one of the most feared hunters on the planet. The Killer Whale isn't a whale, it's named 'Killer Whale' because of its size and because it hunts whales. The Aoka is black with a white underneath and a few spots on top.

Movement

→ The Aoka can swim at speeds of 32 mph. The Aoka silently glides through the water. Very few species can get away from the Aoka's speed.

Diet

The Aoka is capable of killing sharks and leopard seals. The Aoka can outwit and overpower any species. The Aoka is also known as the sea wolf. The Aoka simply owns the name 'Killer whale'.
